ERGONOMIC CONCEPTS PRESS RELEASE

ECI-444-4P Parabolic Monitor Support

- **Four independently mounted flat screen supports, two fixed, two extended**
- **One support beam for four monitors, 48" long**
- **Support beam can be adjusted up or down, 12" range of movement**
- **Mounting heads meet VESA standards, supporting 75mm, 100mm bolt pattern**
- **Base support clamps onto most work surfaces**

Our ergonomically designed parabolic monitor support has been constructed to provide the optimal positioning for intensive use. Personal adjustment can be attained by the touch of a finger, positioning the monitors at the correct focal point as well as correct anatomical alignment. The LCD monitors are sold separately. For more information call, 888-204-4600.
